

### Waterlogged camping

The camping site for Halland's 3-days is waterlogged after the last few days' rain. This makes club camping impossible. We will have to start with the innermost spots on the driest places and then continue outwards. If the spots were to be preplanned, some passages would get blocked which would render driving in much more difficult. We will do what we can to make driving in easier.

**DRIVING IN AT THE CAMPING WILL TAKE SOME TIME!**

We kindly request that you arrive well in advance in order not to have shortage of time in going to the race.

If you want to stay near your club mates, you could arrange to arrive at the same time at the camping.

The camping opens Thursday at noon.

For other information, see the camping memo.

Eric Toftered, camping manager
